

**A Treasure Trove at the Sidelines of Technological Advances:
OAT BREEDING IN EUROPE**

By Marcel Bruins and Michelle Clarke

This article was originally published by [European Seed magazine](#) and can be accessed [here \(pdf\)](#) or [here \(weblink\)](#).

The main article is based on an interview with Ingeborg Westerdijk from Wiersum Plant Breeding and Steffen Beuch from Nordsaat Saatzucht GmbH. A sidebar describes the results of the SWOT analysis performed by Chris Green from Oat Innovations that was described in an earlier article in the Oat Newsletter, found [here](#).
